

TIME	MAINCHAIN Moderator: Nick Hollins	SIDECCHAIN Moderator: Lukas Schor & Ben Smith
08:30	Doors open	
09:45	Open & Welcome Stefan George - Gnosis	
10:00	 Designing staking, rewards and slashing Peter Czaban - Web3 Foundation	 Etherlime - the ethers.js based stability you need in your dev tools Daniel Ivanov & George Spasov - LimeChain
10:30	 Websnarks Jordi Baylina - Iden3	 Building (d)apps people want Ramon Recuero - OpenZeppelin
11:00	 Build and operate Layer-2 dapps on Ethereum Mainnet Qingkai Liang - Celer Network	 The process and toolkit for layer 2 devtools Brandon Ramirez - Graph Protocol
11:30	 The road to scalability Martin Köppelmann - Gnosis [Moderator] Sunny Aggarawal - Cosmos/Epicenter Podcast Lefteris Karapetsas - Raiden Network Alexey Akhunov - Ledger Watch Jordi Baylina - Giveth.io	 The road to truly decentralized dapps Eduardo Antuña Diez - DappNode
12:00	Lunch Break	 Building a dapp platform that makes financial tools accessible to anyone with a mobile phone Marek Oszewski - Celo
12:30		 Prediction market for decentralised earth observation Julien Bouteloup - Flyingcarpet
		 When smart cards meet smart contracts... Peter Grassberger & Deitmar Hofer - Lab10 collective
13:00		Lunch Break
13:30	 Taking back the web with Embark Jarrad Hope - Status	
14:00	 Ultra light client: Incubed, gas-based voting tool: Opinionator, smart contract structure analyzer: Piet Christoph Jentzsch - Slock.it	 Smart wallets for smarter DeFi Itamar Lesuisse & Julien Niset - Argent
14:30	 Why zkSNARKS aren't enough: Taking a holistic approach to privacy Harry Halpin - Nym	 Next stop Alderaan: Feature preview of Raiden's upcoming release Lefteris Karapetsas - Raiden Network
15:00	 The legally- compliant DAO: More hype than substance Silk Noa Elrifai - Gnosis [Moderator] Constance Choi - Seven Advisory Iris Wuisman - Leiden University Aaron Wright - ConsenSys Beth McCarthy - Starfish Network Ameen Soleimani - MolochDAO	 The finality gadget: putting eth2.0 to work Alex Stokes - Ethereum Foundation
15:30	Refreshment Break	 NFTs and zkSNARKs to bring off-chain assets into DeFi Philip Stehlik - Centrifuge
16:00		 Scaling Ethereum at Layer-0 Aleksander Kuzmanovic - BloXroute Labs
16:30	 Burners and DAOs Austin Griffith - Burner Wallet	 Private computation for smart contracts Ainsley Sutherland - Enigma
17:00	 Smart wallets: Interplay of UX and contract design decisions Richard Meissner & Tobias Schubotz - Gnosis Safe	 Fully homomorphic encryption: The road to secure computation John Pacific - Nucypher
17:30	 Look at my flashy colors and rounded corners! Sebastien Couture - Epicenter Podcast [Moderator] Chriss Sugg - Airswap, Fluidity Alex Van de Sande - Ethereum Foundation Itamar Lesuisse - Argent Pedro Gomes - Wallet Connect Foundation)	 Network-layer anonymity for privacy enhanced dapps Claudia Diaz - Nym
18:00	Happy Hour in the Atrium

TIME	MAINCHAIN Moderator: Richard Muirhead	SIDECHAIN Moderator: Lukas Schor & Kelsie Nabben
08:30	Doors open	
09:45	Welcome Day 2	
10:00	<div>● Epicenter Live</div> Sebastien Couture - Epicenter Podcast Friederike Ernst - Gnosis/Epicenter Podcast Sunny Aggarwal - Cosmos/Epicenter Podcast	<div>● Automated refinancing and placing limit orders with conditional transaction executions</div> Luis Schlieske & Hilmar Maximilian Orth - Gelato
		<div>● Contract-based accounts: Their implications for mobile dapps, UX, censorship, and DevEx</div> Paul Cowgill - Tasit Labs
10:30		<div>● How to reach daily cryptocurrency utility with dapps</div> Viktor Radchenko - Trust Wallet
	<div>● MolochDAO has risen, now what?</div> Ameen Soleimani - MolochDAO	
11:00		<div>● Metatransactions: Can they solve all your problems?</div> Alex Van de Sande -Ethereum Foundation
11:30	<div>● Governance design for positive stakeholder engagement and preventing contemptuous hard forks during platform upgrades</div> Stephanie Hurder - Prysm Group	<div>● WalletConnect's Road to 2.0</div> Pedro Gomes - Wallet Connect
12:00	<div>● Tales of governance: DAOs, Swarms and Anarchic systems</div> Sunny Aggarwal - Cosmos/Epicenter Podcast [Moderator] Ameen Soleimani - MolochDAO Stephanie Hurder - Prysm Group Jorge Izquierdo - Aragon One Sebastian Gajek - ditCraft	<div>● On-board new users to your dapp with digital asset based referral-marketing</div> Mikhail Dobrokhvalov & Gustav Friis - Linkdrop
12:30	Lunch Break	Lunch Break
13:00		<div>● Continuously funded DAOs</div> Thomas Spofford - dorg
13:30		<div>● Building a new digital jurisdiction for DAOs</div> Jorge Izquierdo- Aragon One
14:00	<div>● Crowd-sourced oracles, parasites and forkonomics</div> Edmund Edgar - Realitio	<div>● Anti-rival, collaborative networks</div> Matan Field - DAOstack
	<div>● Multi-conditional tokens as a new crypto primitive</div> Friederike Ernst - Gnosis	<div>● Reputation & cross-DAO collaboration in the dxDAO</div> Matthew Finestone - Loopring
14:30		<div>● Decoupling from the legacy financial system: benefits from finance-oriented DAOs</div> Anastasia Andria - Akropolis
15:00	<div>● AMA</div> Martin Köppelmann - Gnosis [Moderator] Joseph Lubin - ConsenSys	<div>● Decentralized foundation launch on Mainnet</div> Niran Babalola - Panvala
	Refreshment Break	
15:30		<div>● An essential and practical guide to Chinese community</div> Toya Bu - Nervos
16:00	<div>● How Zero-knowledge proofs can help your dapp</div> Alex Glochowski - Matter Labs	<div>● 10 questions to an Ethereum OG project: The Golem project</div> Aleksandra Skrzypczak - Golem
16:30	<div>● An overview of technologies used for building permissionless exchanges</div> Alexander Hermann - Gnosis	<div>● Why finance can be better on Ethereum: Complexity and systemic risk</div> Ethan Bennet - MakerDAO
17:00	<div>● How to measure success?</div> Martin Köppelmann - Gnosis [Moderator] Joseph Lubin - ConsenSys Ryan Selkis - Messari TBC	<div>● Designing for humans: crypto insights from field research in Kenya, Tanzania, Argentina, Venezuela, and Mexico</div> Vanessa Slavich - Celo
17:30		
	Goodbye Sefan George - Gnosis & EthBerlin	
18:00	Dappcon Party
