TIME | MAINCHAIN | SIDECHAIN

MAINCHAIN — Moderator: Nick Hollins
SIDECHAIN — Moderator: Lukas Schor & Ben Smith

TIME	MAINCHAIN	SIDECHAIN
08:30	Doors open	
09:45	**Open & Welcome** Stefan George - Gnosis	
10:00	**Designing staking, rewards and slashing** Peter Czaban - Web3 Foundation	**Etherlime - the ethers.js based stability you need in your dev tools** Daniel Ivanov & George Spasov - LimeChain
10:30	**Websnarks** Jordi Baylina - Iden3	**Building (d)apps people want** Ramon Recuero - OpenZeppelin
11:00	**Build and operate Layer-2 dapps on Ethereum Mainnet** Qingkai Liang - Celer Network	**The process and toolkit for layer 2 devtools** Brandon Ramirez - Graph Protocol
11:30	**The road to scalability** Martin Köppelmann - Gnosis [Moderator] Sunny Aggarawal - Cosmos/Epicenter Podcast Lefteris Karapetsas- Raiden Network	**The road to truly decentralized dapps** Eduardo Antuña Diez - DappNode
12:00	Alexey Akhunov - Ledger Watch Jordi Baylina - Giveth.io	**Building a dapp platform that makes financial tools accessible to anyone with a mobile phone** Marek Oszewski - Celo
	Lunch Break	
12:30		**Prediction market for decentralised earth observation** Julien Bouteloup - Flyingcarpet
		When smart cards meet smart contracts... Peter Grassberger & Deitmar Hofer - Lab10 collective
13:00		**Lunch Break**
13:30	**Taking back the web with Embark** Jarrad Hope - Status	
14:00	**Ultra light client: Incubed, gas-based voting tool: Opinionator, smart contract structure analyzer: Piet** Christoph Jentzsch - Slock.it	**Smart wallets for smarter DeFi** Itamar Lesuisse & Julien Niset - Argent
		Next stop Alderaan: Feature preview of Raiden's upcoming release Lefteris Karapetsas - Raiden Network
14:30	**Why zkSNARKS aren't enough: Taking a holistic approach to privacy** Harry Halpin - Nym	**The finality gadget: putting eth2.0 to work** Alex Stokes - Ethereum Foundation
15:00	**The legally- compliant DAO: More hype than substance** Silk Noa Elrifai - Gnosis [Moderator] Constance Choi - Seven Advisory Iris Wuisman - Leiden University	**NFTs and zkSNARKs to bring off-chain assets into DeFi** Philip Stehlik - Centrifuge
15:30	Aaron Wright - ConsenSys Beth McCarthy - Starfish Network Ameen Soleimani - MolochDAO	**Scaling Ethereum at Layer-0** Aleksander Kuzmanovic - BloXrout Labs
	Refreshment Break	
16:00		**Private computation for smart contracts** Ainsley Sutherland - Enigma
	Burners and DAOGs Austin Griffith - Burner Wallet	**Fully homomorphic encryption: The road to secure computation** John Pacific - Nucypher
16:30		
	Smart wallets: Interplay of UX and contract design decisions Richard Meissner & Tobias Schubotz - Gnosis Safe	**Network-layer anonymity for privacy enhanced dapps** Claudia Diaz - Nym
17:00	**Look at my flashy colors and rounded corners!** Sebastien Couture - Epicenter Podcast [Moderator] Chriss Sugg - Airswap, Fluidity	**How staking-as-a-service bridges DeFi for mainstream** Stani Kulechov - Aave
17:30	Alex Van de Sande - Ethereum Foundation Itamar Lesuisse - Argent Pedro Gomes - Wallet Connect Foundation)	
18:00	Happy Hour in the Atrium

TIME	MAINCHAIN Moderator: Richard Muirhead	SIDECHAIN Moderator: Lukas Schor & Kelsie Nabben
08:30	**Doors open**	
09:45	**Welcome Day 2**	
10:00	🔴 **Epicenter Live** Sebastien Couture - Epicenter Podcast Friederike Ernst - Gnosis/Epicenter Podcast Sunny Aggarwal - Cosmos/Epicenter Podcast	🔵 **Automated refinancing and placing limit orders with conditional transaction executions** Luis Schliesske & Hilmar Maximilian Orth - Gelato⟩ 🔵 **Contract-based accounts: Their implications for mobile dapps, UX, censorship, and DevEx** Paul Cowgill - Tasit Labs
10:30	🔵 **MolochDAO has risen, now what?** Ameen Soleimani - MolochDAO	🔵 **How to reach daily cryptocurrency utility with dapps** Viktor Radchenko - Trust Wallet
11:00	🔵 **Governance design for positive stakeholder engagement and preventing contemptuous hard forks during platform upgrades** Stephanie Hurder - Prysm Group	🔵 **Metatransactions: Can they solve all your problems?** Alex Van de Sande -Ethereum Foundation
11:30	🔴 **Tales of governance: DAOs, Swarms and Anarchic system** ⟩⟩ is Sunny Aggarwal - Cosmos/Epicenter Podcast [Moderator] Ameen Soleimani - MolochDAO Stephanie Hurder - Prysm Group Jorge Izquierdo - Aragon One Sebastian Gajek - ditCraft	🔵 **WalletConnect's Road to 2.0** Pedro Gomes - Wallet Connect
12:00		🔵 **On-board new users to your dapp with digital asset based referral-marketing** Mikhail Dobrokhvalov & Gustav Friis - Linkdrop **Lunch Break**
12:30	**Lunch Break**	
13:00		🔵 **Continuously funded DAOs** Thomas Spofford - dorg
13:30		🔵 **Building a new digital jurisdiction for DAOs** Jorge Izquierdo- Aragon One
14:00	🟢 **Crowd-sourced oracles, parasites and forkonomics** Edmund Edgar - Realitio	🔵 **Anti-rival, collaborative networks** Matan Field - DAOstack
	🔵 **Multi-conditional tokens as a new crypto primitive** Friederike Ernst - Gnosis	🔵 **Reputation & cross-DAO collaboration in the dxDAO** Matthew Finestone - Loopring
14:30	🔴 **AMA** Martin Köppelmann - Gnosis [Moderator] Joseph Lubin - ConsenSys	🔵 **Decoupling from the legacy financial system: benefits from finance-oriented DAOs** Anastasia Andria - Akropolis
15:00	**Refreshment Break**	🔵 **Decentralized foundation launch on Mainnet** Niran Babalola - Panvala
15:30		🟠 **An essential and practical guide to Chinese community** Toya Bu - Nervos
16:00	🟡 **How Zero-knowledge proofs can help your dapp** Alex Glochowski - Matter Labs	🟢 **10 questions to an Ethereum OG project: The Golem project** Aleksandra Skrzypczak - Golem
16:30	🔵 **An overview of technologies used for building permissionless exchanges** Alexander Hermann - Gnosis	🔵 **Why finance can be better on Ethereum: Complexity and systemic risk** Ethan Bennet - MakerDAO
17:00	🔴 **How to measure success?** Martin Köppelmann - Gnosis [Moderator] Joseph Lubin - ConsenSys Ryan Selkis - Messari TBC	🔵 **Designing for humans: crypto insights from field research in Kenya, Tanzania, Argentina, Venezuela, and Mexico** Vanessa Slavich - Celo
17:30	**Goodbye** Sefan George - Gnosis & EthBerlin	
18:00	**Dappcon Party**

TIME	KOVAN Workshops	RINKEBY Workshops	ROPSTEN Workshops
09:30	Doors open		
10:00	**Building fast, decentralised web apps and frontends** Sam Williams - Arweave	**GraphQL, Archive Data, and under utilized APIs** E.G. Galano - Infura	**Writing adaptive aragon DAOs** Cory Dickson - Aragon
10:30	**Building MetaTransaction powered (d)applications with OpenZeppelin and Starter Kit** Dennison Bertram - OpenZeppelin	**How to become an Ethereum core developer** Alexey Akhunov & Dimitry Khoklov - Ledger Watch	
11:00			
11:30			
12:00		Lunch Break	**Conditional tokens: hands-on training on a new binding library** Raphael Mazet & Jakup Wojciechowski Alice
12:30	**Lunch Break**		
13:00		**How to become an Ethereum core developer** Alexey Akhunov & Dimitry Khoklov Ledger Watch	**Lunch Break**
13:30	**Bringing data privacy to Ethereum apps with Enigma** Lena Kleyner - Enigma		
14:00		**Remixing Remix & relearning Solidity solidly** Yann Levreau & Liana Husikyan & François Guezengar - Remix	**Getting hands-on with 0x Mesh: A peer-to-peer network for propogating DEX orders** Fabio Berger - 0x
14:30	**How to analyse Ethereum data and share your results in minutes** Fredrik Haga - Dune Analytics		
15:00			**cadCAD Introduction** Token Engineering
15:30	**How to build a decentralized chat app with 3Box** Michael Sena & Joel Torstensson - 3Box		
16:00		**Achieving scalability on Ethereum 1.0 through interoperability** Igor Barinov - POA Network	
16:30			
17:00			**Legal AMA session** Token Engineering
17:30			
18:00
